# KATTA SAI RESHMI *Data Analyst*

kattareshmi617@gmail.com +91 7989234927 Dharmavaram Katta Sai Reshmi Katta Sai Reshmi

**Detail-oriented Data Analyst** skilled in Python, SQL, Excel, and Power BI, with hands-on experience in data cleaning, analysis, and dashboard development. Experienced in analyzing sales, marketing, and banking datasets to identify trends and generate actionable insights, supporting data-driven business decisions.

## SKILLS

**Programming Languages:** Python | C

**Computer Science Foundations::** Data Structures and Algorithms (DSA) | Object-Oriented Programming (OOP)

**Web:** HTML5 | CSS3 | JavaScript

**Databases & Tools::** SQL | MySQL | Git | GitHub | VS Code

**Visualization::** Power BI | DAX | Excel

## PROFESSIONAL EXPERIENCE

**Sense Semiconductor & IT Solutions Pvt. Ltd,** *Summer Intern* 06/2025 – 06/2025 | Guntur

- Gained **corporate exposure** through industry-oriented training and hands-on experience in FPGA-based system design.
- Worked on **industry projects and practical assignments**, applying technical concepts to real-world engineering problems.
- Participated in **hands-on activities and project demonstrations**, strengthening problem-solving and implementation skills.
- Developed an understanding of **professional work environments and industry practices**.
- Strengthened skills in **FPGA-based design and digital systems** through practical training.
- Demonstrated **technical learning, teamwork, and project ownership** while completing assigned tasks during the internship.

## PROJECTS

**E-Commerce Sales Analysis**

- Analyzed **100K+ sales records** using Python, SQL, and Excel to identify sales, revenue, and profitability trends.
- Performed data cleaning and transformation using **Pandas and SQL** to prepare datasets for analysis.
- Developed an interactive **Power BI dashboard** with KPIs for sales, profit, products, customers, and regional performance.
- Generated insights on **top-performing products, customer segments, and monthly sales trends** to support business decisions.

**Marketing Campaign Analysis**

- Analyzed **customer and campaign data** using Python and SQL to evaluate marketing performance.
- Performed **data cleaning and exploratory analysis** using Pandas.
- Developed an interactive **Power BI dashboard** tracking conversions, ROI, and campaign KPIs.
- Identified **high-performing campaigns and customer segments** to optimize marketing strategies.

**Bank Loan Analysis**

- Analyzed **38K+ loan records** using SQL and Power BI to evaluate loan performance.
- Implemented **SQL queries and aggregations** for loan and customer-level analysis.
- Developed an interactive **Power BI dashboard** with financial and loan performance KPIs.
- Identified **loan trends and high-risk customer segments** to support lending decisions.

## EDUCATION

**B.Tech – Electronics & Communication Engineering,** 2023 – Present | CGPA:8.5
*Rajiv Gandhi University of Knowledge Technologies, IIIT RK Valley*

**PUC-MPC,** 2021 – 2023 | CGPA:9.9
*Rajiv Gandhi University of Knowledge Technologies, IIIT RK Valley*

**SSC,** *BSR MUNICIPAL SCHOOL-DHARMAVARAM* 2020 – 2021 | CGPA:10

## PUBLICATIONS

**Smart Traffic Light Control System using Ultrasonic Sensors & FPGA,** *IJERT* 07/07/2025

- Designed and developed an intelligent traffic light control system using **ultrasonic sensors and FPGA-based automation** to dynamically manage traffic flow, reduce congestion, and improve the efficiency of urban traffic management systems.

## ACHIEVEMENTS & ACTIVITIES

**Event Anchor:**
Hosted college events, developing confidence, public-speaking, and communication skills.

**Hackathon Participant:**
Collaborated with team members to develop and present a solution within a limited timeframe.
